

I hope all of you at FCC are aware of what is going on with Sinclair. Besides being illegal, i think it is totally unfair, and it just shows how much big business can do whatever they want, and are running the country.

if you want to know that you did your part to make america the place where you can live FREELY, then i am sure that you will stop Sinclair from airing the anti Kerry ads without airing the opposite argument also, or just not airing anything at all.

it's our radio system. we should hear what we ALL want. and you know it's just propoganda anyway.

Thank you.
